

Stop the War Coalition and CND have called a demonstration on Saturday 23 September, the eve of the Labour Party Conference in Manchester. Coaches and trains are bringing protestors to Manchester from every corner of the UK. The march will surround the Labour party conference and we will perform a die-in to protest the tens of thousands who have died in Bush and Blair's wars. The march will end with a rally in Albert Square.

# WHY IT'S TIME TO GO

**"This year's demonstration in Manchester on the eve of the Labour Party Conference is of special importance. Most of the delegates opposed the war. They will get a big boost from the demonstration at a moment when it really matters. Our demands should be taken up by the whole labour and trade union movement."**  
Tony Benn

- Tony Blair's war policies have brought nothing but death, destruction and chaos to Iraq.
- Bush and Blair's wars have encouraged Israel's murderous attacks on Lebanon and Gaza.
- No reconstruction is taking place in either Iraq or Afghanistan, which are both being torn apart by the continuing occupation.
- The war was based on lies. The overwhelming majority in Britain think the war was wrong and the troops should come home.
- Any attack on Iran would further inflame the situation in the Middle East.

# What you can do to help

- Distribute flyers, available from Stop the War.
- Get your trade union branch, campaign group, church or mosque to support the march.
- Help raise money and organise local transport to Manchester
- Contact your local Stop the War group.
- Encourage your family, friends, work colleagues, fellow students to join the TIME TO GO demonstration.
